

# Client Testimonial

Dear Victoria:

We very much appreciate having you as our insurance agent. Although we have only spoken by phone & have NOT met face-to-face, we have felt as though you are a very close personal friend & have our best interests at heart. The process of buying life insurance was made very simple. You listened to what we wanted and offered the exact products we wanted. You kept us apprised of the progress of our applications and you remained in good, close contact with us throughout the entire process. We have only thanks and praise for you and your help & friendship.

We will absolutely keep you in mind for other financial & insurance products & services as other needs arise. Oh, we also very much liked your promotional materials! They were so very specific & to-the-point, that we knew you were the person we wanted to deal with right from the street!

I give permission for Victoria Eden to copy or quote this in the promotion and marketing of her business.
