

Client Testimonial

Buying life insurance through Victoria was much more personal than our previous experience. ~~For~~ With Victoria we did not feel pushed or pressured at all, and were completely educated in layman's terms every step of the way. We felt ready (not usure) to make our choices and felt secure that we had done the right thing for our family situation. We were so surprised when Victoria called to say we actually qualified for \$115,000 more coverage for ~~same amount of~~ ^{\$3,000 more in} premium, and that she could negotiate such a good rate for my husband despite his heart problems. We often mention Victoria if subject of health or life insurance comes up. We definitely recommend her. We have peace of mind knowing life ins. is in place for sake of our children.

I give permission for Victoria Eden to copy or quote this in her promotion and marketing.
