

# Client Testimonial

What I liked best about doing business with Victoria Eden was it was NOT like doing business. She was very patient with our concerns and questions. She was very nurturing as we learned the process of life insurance. Our primary goal was increasing coverage and decreasing premiums. Victoria exceeded our expectations offering more coverage than we thought we could afford, and saving us \$364<sup>00</sup> per year. Victoria took the time to develop a relationship with us - one that we hope will last a long time. Life insurance is peace of mind for my family. It is also something (once you've purchased) you tend to forget about. I know that Victoria will always be looking out for our best interests. She will conduct periodic reviews to keep us abreast of current trends in the life insurance business. We feel confident that Victoria will always find the most bang for our buck. That is one less thing I have to worry about.

I give permission for Victoria Eden to copy or quote this in the promotion and marketing of her business.
