

# Client Testimonial

When I met Victoria Eden socially, we talked about the work she does (life insurance) so I told her I had just applied for a new term life policy. She asked me a few questions, did a bit of research then told me I wouldn't qualify for the originally quoted rate.

I didn't know if that was true so I waited till that policy was finally issued to find out. Victoria was right. She had accurately predicted the payment the insurance company would really charge -- \$48.54 MORE per month! I didn't accept that policy. Instead I applied to a new company with Victoria as my agent.

Victoria was able to find a policy costing \$25.61 LESS each month than the final rate on the other policy AND it was \$250,000 bigger too. So now I pay less premiums BUT I have a quarter million more life insurance to protect my wife and children.

Victoria's expertise was noteworthy. I would recommend her without hesitation.

I give permission for Victoria Eden to copy or quote this in her promotion and marketing.
