

# Client Testimonial

A friend in the insurance industry recommended Victoria Eden to my wife and me for life insurance. She was great to work with and kept us informed every step of the way. My wife's policy was issued quickly at the exact premium that Victoria quoted.

But something came up on my application that the company thought justified doubling the payment for my policy. Victoria was unphased and stepped up with a solution. She took the health information already gathered and shopped around for the best rate to different insurance companies. There were two good possibilities so she applied to both for me as concurrent applications.

It took a bit of time and lots of follow up but she secured two firm offers for life insurance – one at Standard rates and one at Preferred Plus rates. Because of Victoria's caring, hard work and expertise, my life insurance will cost \$1,325 less every year, a savings of \$26,500 over the 20 year term. On top of that, she knew to "back date to save age" which reduced my premiums an additional \$1,866 over the life of the policy.

Victoria was professional and knowledgeable. I recommend her for life insurance without hesitation. *I appreciate her dedication and thoroughness through this process, we are busy professionals and she made herself available any time we needed.*

I give permission for Victoria Eden to copy or quote this in her promotion and marketing.
