My brother is already your client and he referred me to you. I called the first time about 3 years ago. You were patient and consistent but never pushed me. Thank you for sticking with me. I feel great because I finally having life insurance to protect my family.

One company denied my application but you found another company to apply to. Then other problems came up. You kept on jumping through hoops, working hard till my policy was approved. You made sure I was getting what I needed and could afford. Another thing I really appreciate is you never made me feel unimportant even though I was buying a small policy. I can tell you really care about ALL your clients.

I am grateful to God for my life insurance. I am so glad I didn't miss out having you as my agent. I want to tell everyone that you are the BEST agent!

THANK YOU!
